ROUND CEILING DIFFUSER

ANA Round Ceiling Diffusers :

Is designed for supplying or returning air, commonly used in Ceiling air distribution applications. Basically constructed from a frame, a fully removable core and a flower in the middle of the core.

ANA RCD Construction

Frame :

Constructed from Aluminum Sheet alloy **6063**, manufactured in a round shape to give a unique architectural design .

Core :

Constructed from Aluminum sheet alloy **6063** , designed to give a full 360°spread for better air distribution. fixed to the frame using mullion bars and arranged with Fixed distances between each two blades necks.

Dampers:

Can be added if required. Butterfly Damper (**RAL 9005**) type attached to the top side of the Diffuser by rivets.

Finish :

Electrostatic powder coating is used for RCD with standard white color for the Frame and the cores (**RAL 9016**) and black color for the damper (**RAL 9005**) and other colors are available upon the request.

Sizes :

6", 8", 10", 12", 14", 16" and 18"

ROUND CEILING DIFFUSER

ANA Supply Round Ceiling Diffuser

Model : NRCDS

- Air Discharge are in a round shape for huge spread (**360°**) in all directions.
- The frame and the core are made from aluminum sheet **6063**.
- Volume damper (Butterfly Damper) is attached to the neck and can be controlled by the screw after removing the core.

ANA Return Round Ceiling Diffuser

Model : NRCDR

- Air Discharge are in a round shape for huge spread (**360°**) in all directions.
- The frame and the core are made from aluminum sheet **6063**.

ANA Round Ceiling Diffuser Dimensions:

Dimensions (mm)

SIZE	A	B	C	D
150 Ø	342	147	25	85
200 Ø	394	199	25	85
250 Ø	444	249	25	85
300 Ø	494	299	25	85
350 Ø	545	350	25	85
400 Ø	596	401	25	85
450 Ø	657	462	30	85
